PROFESSIONAL EXPERIENCE

React Native Developer

WebSenor Private Limited

May 2025 – Present

Udaipur, Rajasthan

- Developed **Logix**, a goods and logistics delivery application using React Native with **Google Maps**, **WebSocket**, **Razorpay**, and REST APIs for shipment booking, live tracking, secure payments, and real-time order management.
- Built **Moolyam**, a real estate property booking platform with property reservation, KYC verification, and payment workflows supporting **RTGS**, **IMPS**, **NEFT**, and cheque payments.
- Integrated REST APIs, authentication, role-based access, responsive UI, and optimized application performance across Android and iOS platforms.

React Native Intern

WebSenor Private Limited

Feb 2024 – May 2025

Udaipur, Rajasthan

- Developed **Mantae Vendor**, a Blinkit-style vendor management application for product catalog, inventory, and order management using React Native.
- Implemented product CRUD, PDF/Excel invoice generation, Blob file downloading, image uploads, and REST API integration.
- Built responsive interfaces with inventory tracking and order management for Android and iOS.

PROJECTS

MyWhip | Mobile car-wash platform

- Delivered customer and vendor flows for vehicle and service booking, payments, nearby-centre discovery, booking status, and assigned-driver tracking; added vendor catalogues, job assignment, pickup/drop proof, photo evidence, payouts, and driver activity.

G10 Digital Goldsaving | Digital-gold savings and investment

- Built wallet, payment, buy/sell, gold-trend, transaction, withdrawal, bank-detail, mandate, and physical-gold redemption flows, with profile management, recent activity, multilingual support, and notifications.

Madawatsab | Matchmaking and social discovery

- Created profile, preference, discovery, chat, privacy, verification/ID-proof, block/report, account, payment-history, language, and support flows with detailed profile validation for safer matching.

Panelist | Survey and rewards platform

- Supported respondent survey discovery, KYC, profiles, and rewards; enabled creators to build surveys with varied question types, logic, randomisation, waves, targeting/geo restrictions, response review, and AI insights.
